

REMARKS

The specification has been amended in order to: 1) properly refer to the figure numbers of the formalized drawings submitted herewith; and 2) include sequence identifiers for the sequences which were part of the figures and which have been included in the sequence listing filed herewith. No new matter has been added by virtue of the amendments contained herein. Because the amendments are made solely in an effort to properly reflect the formal drawings submitted herewith, it is believed no substantial amount of work is required on the part of the PTO upon entry. Entry of these amendments is thus respectfully requested.
